

MEA TOKEN PLATFORM for Issuer Pay

Simplifies payment functionality for in-store payments by providing a ready-to-implement SDK. Issuers can therefore issue cards directly to mobile apps for immediate use without having to wait for a physical card.

Key Features

Multi-scheme support in a single connection

Provides a pre-certified mobile payment SDK that reduces time-to-market

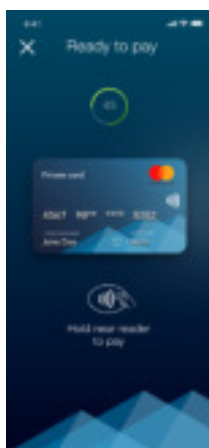

Secure, compliant and certified

Why Mea Token Platform for Issuer Pay?

Issuer Pay gives the opportunities to enrich existing banking app with payment functionality.

- ▶ Enables the issuer to digitize cards for use in their own mobile apps.
- ▶ Provides a mobile payment SDK that supports multiple payment schemes through one integration.
- ▶ Enhances customer experience through instant card issuing, enabling consumers to tap&pay immediately and see real-time transaction details using their mobile.

Supported Schemes

Our Products

- Mea Token Platform - I-TSP
